

Year 4, Unit 1

Lapbook

Getting Started

Assembling your lapbook folders

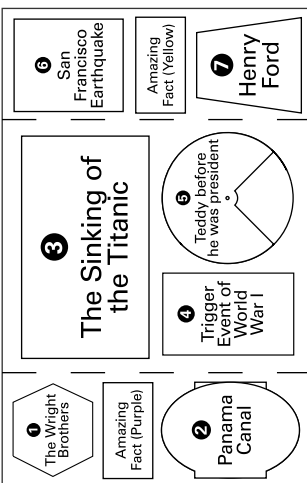

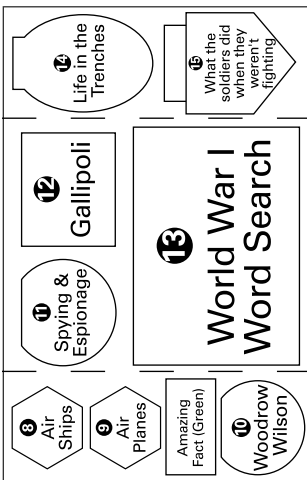

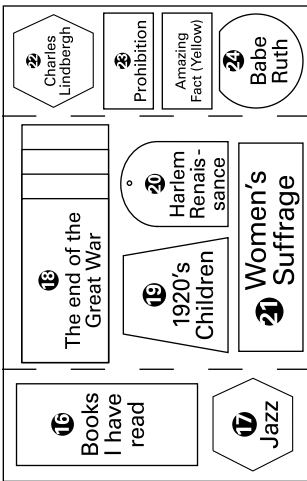

Each folder is made by folding an 11" by 17" sheet of cardstock. Fold 4" on each end of the cardstock into the middle, and glue together as in the diagram at the right. (Our lapbook kits use light and dark blue cardstock.)

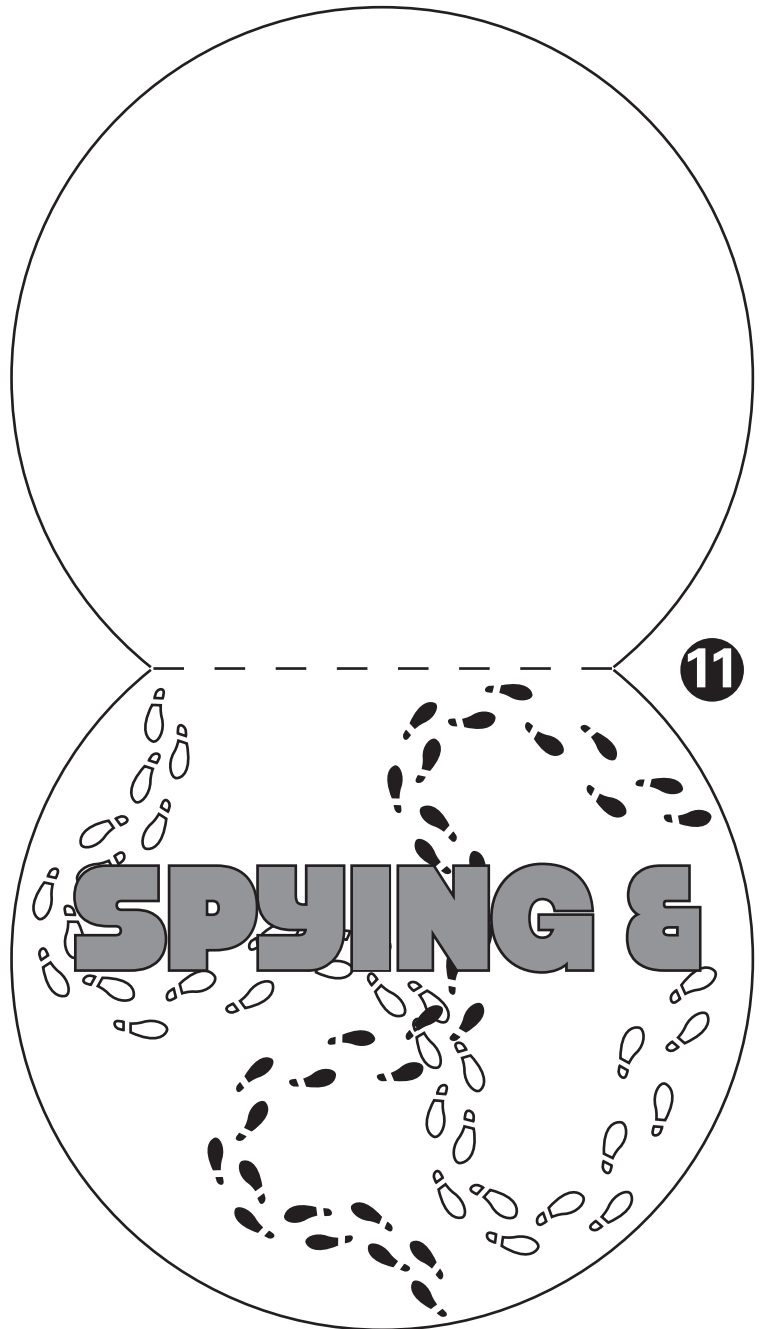

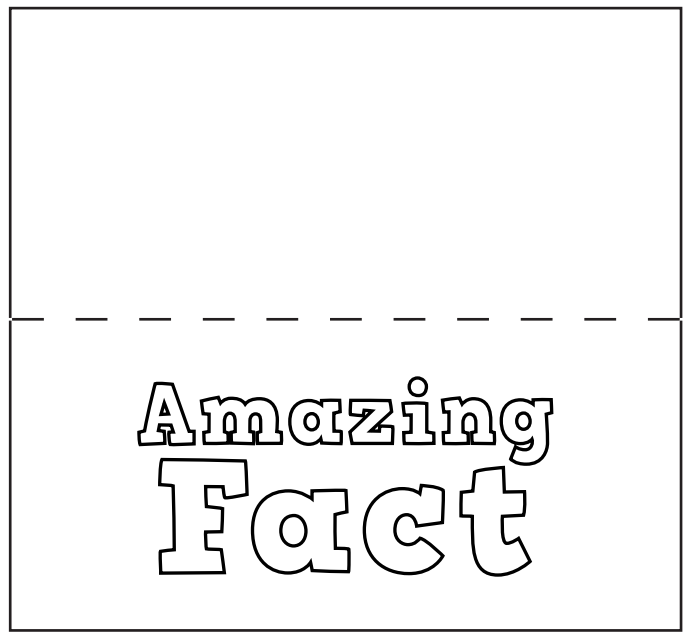

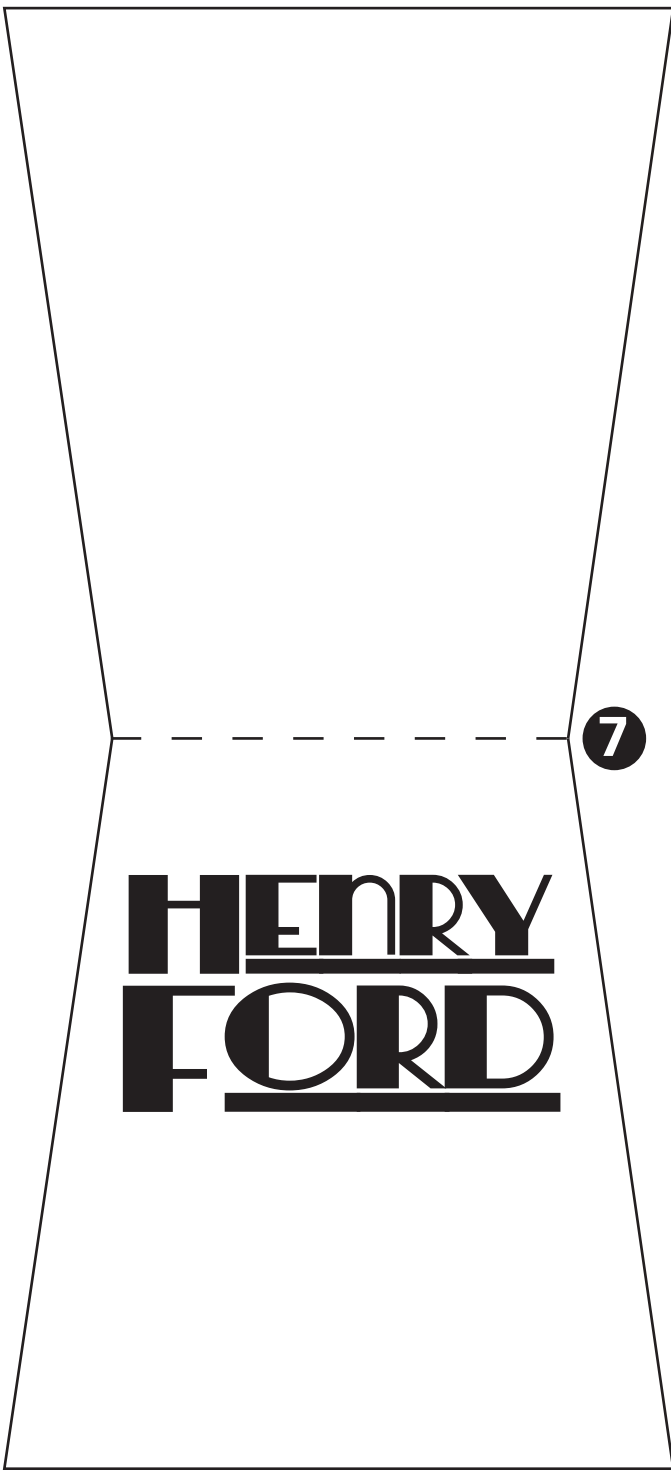

Decorating your Lapbook

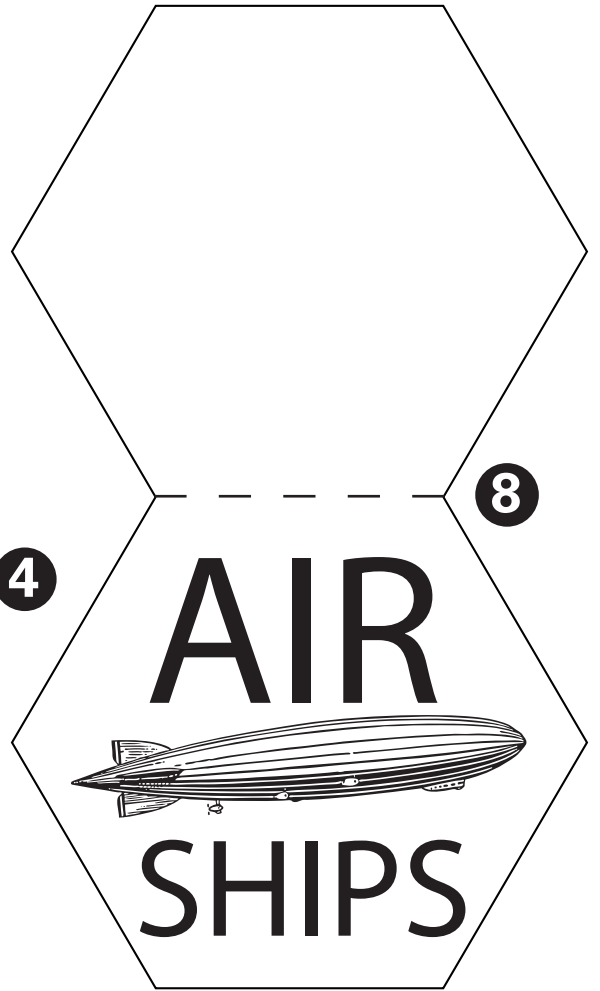

Decorate the outside cover of your lapbook in any style you choose (draw, paint, glue pictures, etc). The ideas for the front cover are endless. Choose a topic or art project from this unit, and have fun making it your own personalized lapbook!

Creating your Lapbook

Print each file on colored paper such as those which we suggest in our file names (using the kit? This step has already been done for you). Use the booklet assembly instructions on the following page to create your lapbook.
